LIBRARY MANAGEMENT

TECHNOLOGIES UTILISÉES: LARAVEL
<https://github.com/AYMANEMTS/GestionDeBibliothque>

EXPERIENCE

LARAVEL DEVELOPER

3 month internship

ALGO ACADEMY CENTER

At Centre Algo Academy, I developed a full stack library management system using Laravel. My responsibilities included implementing database schemas, setting up user authentication, and creating a responsive design. I ensured the system's functionality through thorough testing and debugging, which provided me with solid experience in full stack development

WEB & MOBILE DEVELOPER INTERNSHIP

2 month internship

ALGO ACADEMY CENTER

During my second internship at Centre Algo Academy, I created a parapharmacy management system. I developed the backend services with Laravel to handle inventory and user management, built a dynamic frontend using React, and created a mobile application with React Native. I also integrated RESTful APIs to connect the front end, backend, and mobile app functionalities, enhancing my skills in both web and mobile development.
